To whom it may concern:

This letter confirms that Heerema Marine Contractors (HMC) has had several open ended chartering agreement with Canega since 2000 to provide them with vessels to support their offshore operations.

Over the years, every vessel chartered by Canega from HMC has been operated in accordance with the terms of the charter party without any problems.  
Furthermore, Canega has made all charter hire payments on or before the date due as per charter party, therefore the payment record of Canega is excellent.

Kind regards,

Jan van Akkeren
